TECHNICAL SKILLS

Languages: Python, C, C++, C#, HTML, CSS, TypeScript, Verilog

Tools and Technologies: React, Unity, Git, MySQL, Blender, Figma, Linux

EXPERIENCE

Software Engineering Intern | Mespere LifeSciences Aug. 2024 – Jan. 2025

- Developed a cutting-edge remote checkup platform, now deployed in a newly funded **\$2M** clinical research project
- Built tools in React to visualize live clinical data, focusing on UI for fast and accurate interpretation for doctors
- Implemented analytics and reporting workflow to support clinical insights and structured summaries
- Proactively identified areas for product improvement, raising and implementing in sprints
- Used Git for version control and participated in code reviews with senior engineers

Marketing Co-Director | UWaterloo EngHacks Oct. 2025 – Present

- Designed promotional materials and managed social media, reaching **60K+** viewers in a week
- Partnered with the technical team to design the EngHacks website in Figma, enabling ≈ 400 participants

Marketing Co-Lead | SVP Teens Aug. 2023 – July 2025

- Led youth volunteer initiatives contributing **200+ volunteer hours** and **raising \$8,000+** for local charities
- Organized, marketed, and managed large-scale fundraising and community events attracting 100+ attendees
- Designed promotional materials using Figma, Canva, CapCut, and Procreate, reaching **30k+** viewers in a week

Summer Camp Assistant | Waterloo Region Museum July 2024 – Aug. 2024

- Supervised and engaged groups of 15–20 children in a structured educational setting

Co-President | LHSS Key Club Sep. 2023 – June 2025

- Overhauled club operations and finances, focused on driving engagement, which grew membership from **5 to 30+**

PROJECTS

Bouquet Builder | *Unity, C#, Blender* Oct. 2025 - Present

- Developing a 3D exploration game with player navigation, item discovery, and interactive world systems
- Designed and implemented a modular C# state management system to handle item discovery and player inventory

WatCard Dashboard | *Python, HTML, CSS* Oct. 2025 – Dec. 2025

- Developed a full-stack Python dashboard providing clearer transaction tracking and automated meal plan insights
- Worked in a sprint-based team using issue boards to plan, track, and deliver features with an emphasis on usability

AWARDS AND ACHIEVEMENTS

CFUW Dr. Mabel Dunham Award July 2025

- Highest university entry average (99.2%) for female graduates at LHSS

CEMC Math and Computing Contests

- Top 5%: 2024 Hypatia Math Contest
- Top 25%: 2025 Senior Canadian Computing Competition (CCC), 2024 Senior CCC, 2023 CSMC

EDUCATION

Bachelor of Software Engineering, University of Waterloo Sept. 2025 – May 2030

- Awarded President's Scholarship of Distinction

GPA 4.0
